11 Sample answer

The pictures show the stages in the production of cherry jam. There are a number of processes involved, from picking the fruit from the tree to putting it into jars ready to sell.

First, a sheet is spread on the ground under the tree and the tree is shaken by a mechanical arm to get the cherries down from the tree. Then, the cherries are collected and transported by lorry to the processing plant. There the leaves and the stems are removed and then the stone is taken out with a metal spike. Next, sugar, lemon juice and pectin are added to the cherries and the jam is cooked. After that, the quality of the jam is checked and then the jam is put into jars. A lid is put on top of the jars to keep the jam fresh. Finally, a label is added and the jam is ready to be sold in the shops.

15 Sample answer
The maps show the changes to Colwick Arts Centre between 2005 and the present day. We can see that the Centre expanded and new facilities were added during this period.
One of the major changes is that the outside area was developed. In 2005 there was an empty area of land outside the Centre. Trees were planted there and an outdoor exhibition area was made. The café was moved to the front of the Arts Centre and tables were added outside.

Inside, a central exhibition area was created. The information desk was moved to the front of the central area. In the past there were two galleries but now there is only one; however, a drama studio was built. In 2005 the concert hall and cinema were in the same space, whereas now they are separate. In addition, an extra meeting room was constructed. The toilets moved to the opposite side of the Centre.

So, it is clear that Colwick Arts Centre is more attractive today and has better facilities than in 2005.

- 7 male – about 30%, female – about 41%

- 11 Sample answer

The data shows the literacy rate for both males and females in seven different regions of the world. The horizontal axis lists the regions and the vertical axis shows percentage. In all regions except two, there is a difference in the literacy rates of men and women.

Central Asia and Central/Eastern Europe have the highest percentage of citizens who can read and write. Almost 100% of men and women are literate in those regions. The lowest literacy rates are in Sub-Saharan Africa.

In five out of the seven regions, there are different literacy rates for men and women. The greatest difference between men and women is found in South and West Asia. In this region, about 80% of men are able to read and write, but only about 60% of women. Overall, the difference between the most literate area and the least literate is about 30% for men and just over 40% for women.

In conclusion, literacy rates vary between regions, with males having higher levels than females in most regions. (171 words)

6 The largest group was people who were obese, but apart from the severely obese group, the groups were very similar in size.

15 Sample answer

The bar chart shows the percentage of the adult population who were overweight or obese between 1965 and 2015, while the pie chart shows the percentage of people who were a healthy weight, overweight, obese and severely obese in 2015. The rise in the number of people who are too heavy was gradual from 1965 to 1985. The first significant increase occurred between 1985 and 1995, from around 48% to almost 60%. In the next ten-year period there was a similar large rise. By 2005, approximately 70% of people weighed too much. The upward trend continued into the 21st century but at a slightly lower rate.

The pie chart confirms that in 2015 over 70% of adults were too heavy, and it also gives more detail about how much they were overweight. Only 6% of people were so overweight that their health was seriously at risk, i.e. severely obese. The remaining people were divided more or less equally between the other groups.

16 **Sample answer**

In some countries a mall is known as a shopping centre. The main purpose of a mall was to shop. This is beginning to change and I believe that in the future, the main purpose of a mall will be for entertainment.

More and more of us enjoy shopping online. It is safer than ever and much more convenient. Many websites offer free next-day delivery. On sites like eBay and Amazon, there is far more choice and there are also many discounts and special offers. Obviously, this means that fewer shops will be needed. However, people still want to go out, meet their friends and have fun. A mall is a place which offers space to do that. If people have done their shopping online, the mall will have to offer other facilities to attract visitors.

Some malls already have cinemas and places to eat. However, as well as cheaper cafés and fast food chains, malls are beginning to offer better restaurants and places to eat. I believe this trend will continue. In addition, malls will offer all kinds of leisure facilities such as gyms, swimming pools, children’s play areas, spas, and so on. There will be more live shows, including music, theatre and dance, and a range of exhibitions and special events.

I believe malls have an important role in future society but they will have a different purpose from today. There will still be a few shops but most people will go to the mall to relax and enjoy themselves with their family and friends.

Nowadays young people often spend their free time at home watching TV or playing computer games. Very few do sports outside of school. This means that if they don't do exercise during school time, they will be unfit and suffer from health problems. I agree that children should do sports lessons at school. In this essay I will explain why.

Some people say that sports lessons are a waste of time. Students have to prepare for exams and should spend all their time on academic work. This is what many people think in my country. In my opinion they are wrong. A healthy mind needs a healthy body. Doing exercise every day makes you happy and relaxed. Studying all the time can make you stressed.

Another reason for my opinion is that having an unfit generation will cause many problems for society. When today's children get older, unfortunately they may suffer from illnesses like heart disease. The government will have to spend a lot of money on doctors and hospitals. It is much better to create a fit and healthy adult population by getting children to do sports when they are still at school. In addition, sports teach people discipline and working as a team. This will help them in their future life.

In conclusion, I can say that prevention is better than cure. Children who do sports will be healthier, happier adults. They are more likely to continue with their active lifestyle when they grow up. In this way we can make a better society for the future. (263 words)

- 1 Nouns (things): media, newspaper, fortune, website
Nouns (people): reporter, photographer, celebrity, fan, model, paparazzi, blogger, star
Adjectives: wealthy, popular, talented, famous, well-known
- 2 Good things: well organised, main points are clear, supporting evidence is given
Bad things: repetition of key words
- 3 Point 2: you have fans
Evidence: they take photos of you, send you letters
Point 3: you don't have to wait in queues
Evidence: you can go to the front
Point 4: you can help good causes
Evidence: others might also give to charity
- 4 *Fame* has many advantages. If you are *well-known* you might also be wealthy. You can buy a big house and an expensive car. Another *benefit* is that you have fans. They take photographs of you and send you letters. One more *good point* is if you are *someone that everyone knows*, you don't have to wait in queues. You can go to the front. The last *positive aspect* of being famous is that you can use your fame and money to help good causes. If you give money to charity, others will do so too. In this way, you can make a real difference in the world.
- 5 1 Disadvantages: uses pronouns (the main one) and similar words (drawback, negative aspect, problem)
Famous: uses similar words (well-known, fame) and avoids using 'being famous' when it is not necessary (the main one, a final problem ...)
- 2 1 You don't have a private life.
2 People say bad things about you.
3 Your family may suffer.
4 It is stressful.
- 3 1 Reporters follow you everywhere and take photos of you.
2 They even tell lies about you.
3 Your children may have paparazzi following them.
4 Some actors or singers are badly affected by the pressure.
- 6 There are also disadvantages of being famous. The main one is that you do not have a private life. Reporters follow you everywhere. Even if you are tired or sick, they take photographs of you. Many celebrities have got into trouble after getting angry with reporters and photographers who were following them. The second drawback of being well-known is that people say bad things about you. They even tell lies about you. Even people like Bill Gates, who gives most of his money to charity, are criticised! The third negative aspect of fame is your family may also suffer. Even your children may have paparazzi following them. For example, everyone has seen pictures of Harper, the young daughter of David and Victoria Beckham. A final problem is that it can be very stressful. Some actors or singers are badly affected by the pressure. Many famous people have become ill due to overwork and always being in public view.
- 7 Sample answers
Famous people are often rich. Jackie Chan is worth \$350 million. You might have a lot of fans. Taylor Swift gets thousands of fan letters a week.
You can use your fame and money to help others. Bill Gates donates most of his money.
- 8 1 Fan Bingbing is a popular actress in China. She starred in My Fair Princess. (Also accept: Fan Bingbing is a popular Chinese actress who starred in My Fair Princess.)
2 Benedict Cumberbatch is one of my heroes. I met him when I was in London.
3 Our country has laws that protect people from paparazzi. Some countries' laws are not as strict as ours.
4 There are some reasons for my opinion. The first one is it is difficult to be famous.
- 10 1 The writer agrees that taking photographs of under 18s should be banned.
2 The Beckham children, Prince William and his children, the 'Celebrities with ugly kids' website

3 Yes. The writer understands that people are interested in seeing photos of celebrities and acknowledges (but rejects) the point of view 'fame has a price'.

11 Sample essay

Every year a list of the highest paid celebrities is published. Some stars are paid hundreds of millions of dollars every year. Some people think they deserve this money for their talent and hard work. I personally disagree. I don't believe anyone should have such excessive amounts of money. In this essay I will explain the reasons for my view.

Some people argue that the highest earning celebrities are special. They have a talent that few of us possess and they have worked incredibly hard to become the best. My view is that we all have our own skills and abilities and most of us work hard. Just because someone's talent is for making things or teaching, why should they get paid so much less?

It is true that we create the demand for celebrities that lets them become so wealthy. However, I think we are all paying too much for tickets to concerts and sporting events. This is unfair because people with low incomes don't have the opportunity to see these events in person. If celebrities earned less, more people would be able to afford to buy music and go to concerts.

In addition, I think that it is bad for society that only singers, actors and sportsmen are valued. Children no longer want to grow up to be train drivers, carpenters, plumbers or even teachers because they want a 'celebrity lifestyle' of expensive houses and private jets.

To conclude, I strongly agree that famous people should have a lifestyle which is more similar to that of ordinary people.

12 *Sample answer*

Global warming, also known as climate change, is the rising of temperatures all over the world because of human activity. In this essay I will explain the main causes of global warming and also suggest some solutions.

The earth's temperature is rising due to greenhouse gases, such as carbon dioxide, which get stuck in the air. One major cause is the increase in air pollution from burning fossil fuels like coal in factories and power stations. As the population grows, more energy is being used. Also, nowadays everyone owns several devices, such as computers, tablets and phones. These have to be charged every day. Another major problem is cutting down trees. Trees use carbon dioxide and release oxygen so we need a lot of them. People have cut down trees to use the wood for different purposes.

Although global warming is a major problem, there are some solutions. One of these is to use clean or renewable energy sources. For instance, solar power uses the sun to generate energy; we can also use the power of the wind and waves instead of fossil fuels. We need to protect the rainforests. For every tree that is cut down we need to plant a new tree. We can all help in different ways. One of them is to use public transport when possible and only have one car per family.

To sum up, humans have created the problem of global warming. Therefore, humans must also try to solve the problem. We can all try to live a 'green' lifestyle by saving electricity and not buying things we don't need. (267 words)

7 1 **Question:** What should be done to people caught hunting illegally?
Answer: They should have their money given to animal charities and the same for people buying the animal products.
Example: The government in Kenya took money from people who were caught buying animal furs.
Reason: This will help those charities better protect wild animals.
2 **Question:** Is there anything we as individuals can do to prevent hunting?
Answer: We can stop buying things made from animals.
Example: Many fashion designers no longer use real fur, they use fake fur instead.
Reason: The demand for things made from animals will drop, and so will demand for hunting.
3 **Question:** Will there be more or less hunting in the future?

Nam: Yes, it's a perfect location for taking photographs. Can you see me just there next to the trees?

Mark: Ah yes, I like your hat! And I like the red and silver hat Tae-Hee's wearing too. It's really pretty.

Nam: Yes, it's a traditional hat for a girl. Baby boys wear a different one – all black. It looks very serious!

Mark: That's a bit boring. Black and silver would be more interesting. What's Tae-Hee wearing round her skirt?

Nam: That's a little purse. Boy babies wear this too. It's made of silk and it means good luck in our culture. And she's wearing a belt too. Look – do you see? The belt means she will have a long life!

- Mark:** And what's this on the table there? It's very colourful.
Nam: It's rice cakes.
Mark: I've never seen anything like that before. It looks like a rainbow!
Nam: We always eat rice cakes at a baby's party. There are usually 12 different types of them on the table. Look – this rice cake is completely orange in colour and this one here is bright green!
Mark: It looks like a vegetable!
Nam: Now, look – this is me with my brother's wife, Mi-Cha. We get on really well together.
Mark: What are you holding?
Nam: Oh, it's a little bag. All the guests get a gift bag at the end of the party. And inside there's a present from the baby's parents. It's really fun to open it because you don't know what you'll get. So it could be a candle, or some chocolates. Guess what I got? You can see it in this next photo.
Mark: It looks like a box of tea. But shouldn't it be the other way round – the baby gets the presents?
Nam: Well, the baby receives money from the guests, so in a way you're right! And actually, I've got my present right here. So, why don't we open the box right now and have a cup of tea? Then we can try to finish our assignments.
Mark: Sounds good to me!

- Examiner:** Let's talk about family. So, tell me about your family.
Hoi Chin: My family? Well, my family isn't a large family. It's quite a small family, in fact – and quite a typical family for my country. Just my parents, my older brother and me. So, I'm the baby of the family! I think we're a close, happy family. We do a lot of things together, particularly preparing food – and eating it of course!

4 10

- Examiner:** How often do you go out with your family?
Candidate: Sorry? Can you repeat that?
Examiner: How often do you go out with your family?
Candidate: Well ... we're a close family, we like spending a lot of time together. We try to go out once a week – usually at weekends – on Saturdays or Sundays. We all really like being in the fresh air so we often go for a long walk along the beach. We enjoy going early in the morning when it's quiet. We never go when it's crowded! We live near a big park, so we sometimes go there. We usually go for a long walk and sometimes have a barbecue by the lake. Sometimes our cousin comes along too. He loves running around in the sunshine. He even enjoys swimming in the lake, so it's a good day out for him too!

My father's a very good cook – he's much better than my mother. My brother's getting married next year, so I'm really looking forward to having a sister-in-law! And who knows? Perhaps our family will get bigger in the future! I'd love to have a niece or a little nephew to take to the park one day. Yes, I really want to be an aunt!

8 12

- Student A:** I get on really well with both of my sisters. The older one's at university in Australia, so I don't see her very often any more. The younger one still lives at home though, and we spend all of our free time together.
Student B: I'm a lot like my father. We look similar and have the same interests.
Student C: Most people say that I'm similar to my father because we both have green eyes and black hair. However, I think that I'm more similar to my mother in character. We're both easy-going and calm, so I think it's a mixture of both.

- Examiner:** Is there anyone in your family who annoys you sometimes?
A: My father watches football on TV and shouts a lot.
B: My brother plays on the computer all the time.
C: My mother keeps telling me to tidy my room.

A: I really enjoyed that little place we went to last weekend – there was a really good choice of meat and fish, wasn't there?

B: Did you really think so? I wish I could say the same, but actually, I thought it was pretty limited. There were far too many fish dishes on the menu and I can't stand seafood. There just wasn't enough meat.

A: Oh, come on Jo! We really enjoyed the steak we had, and you said that the beef the people on the other table were eating looked delicious too.

B: Well, I won't be going back. It was much too expensive.

A: Well, I thought it was pretty reasonable. In fact I couldn't believe it when the bill arrived. £40, including a tip. That's only £20 per person. You can't get steak for less than £15 anywhere in town.

David: Hi, Leila! Where are you? We need to leave for the party soon.

Leila: I'm on my way home – I'm still waiting for the bus. I was going to get a taxi back but I've just checked my phone and there's a bus due in about 15 minutes – 7.50 pm to be exact. And it seems to be running on time. It left the railway station a couple of minutes ago, so it's not too far away.

David: Do you want me to pick you up? I've got the car, so it's no problem. Where's the bus stop exactly?

Leila: It's the one on Blythe Road.

David: Blythe Road? I'm just checking it on my phone. Is that B-L-Y-T-H?

Leila: There's an e at the end of Blythe.

David: Got it. OK, I won't be long.

Leila: Actually, David – no need to pick me up. The traffic lights have just changed and I can see the bus coming now. I'd better go – I'll see you at home in a few minutes.

Darren: Hi there, Alicia! How was your weekend? You were on a sailing course down at the harbour, weren't you?

Alicia: That's right – I really enjoyed breathing in all that fresh sea air. It was only two days but the time flew by! The instructor began by teaching us safety rules, which was necessary, but not very exciting. But then on the first morning we learnt how to open the sails and I even learnt how to turn the boat. The water wasn't as calm as it looked, I can tell you – I lost my balance a few times!

Darren: Sounds like you had a lot of fun. I'd love to learn to sail.

Alicia: Well, there are plenty of courses and I think they run them once a month – so just let me check the website here. OK, so this was my course here – see – 4th and 5th of August. Now you could sign up for the next one, at the beginning of September. And it looks like there are still some spaces available.

Darren: So, the next one starts on 1st of September? I think I could do that.

Alicia: Well, let me give you the name of the course leader so that you can give him a call. He's a really experienced sailor ... OK, it's Jon Galloway.

Darren: Is that the usual spelling of John?

Alicia: No, there's no 'H' – he's just J-O-N.

Darren: OK, got you. And did you say his surname's Galloway? Can you spell that for me?

Alicia: Yes – Galloway – that's G-A-double L-O-W-A-Y. And I've got his number too. Why don't you give him a ring?

Jon: So, how's your very first week at university going, Rita? It's Orientation Week for all you new students, isn't it?

Rita: Yes, that's right – Orientation Week. Yes, it's great fun – there are so many different events going on to help us make friends and find our way around the university. And to get around the city, come to that! But you'll remember all that, Jon. You were a new student once!

Jon: That's true. I remember I went on a walking tour of the city on my first day. And I think some students did a bus tour.

Rita: Well, I did a bike tour – I was sent an email about it and I decided to sign up. There were only eight places and there were seven other names on the list already, so I got the very last place.

Jon: I didn't know you had a bike.

Rita: I don't have a bike but that didn't matter. We all hired them – from a little cycle hire shop on Barkway Street. You probably know the place.

Jon: Barclay Street? Do you mean the 'Barclay Street' on campus?

Rita: No, it's Barkway Street – B-A-R-K-W-A-Y. Number 22 Barkway Street, to be exact. It was great – we could choose a traditional bike or an electric one.

Jon: So I take it you went electric!

Rita: Yes, of course I did! Well, think about it – why ride a traditional bike when you can get around the city much faster on an electric one! And because there was a group of us, it wasn't too expensive. In fact the cycle hire was only \$120 for the whole group. So the cost was only \$15 per person and that was for three whole hours!

Jon: Did you say \$50?

Rita: No, \$15. So I thought it was really quite cheap. And I didn't have to bring along a helmet to wear either. That was included – and we also got a lock, so it was easy to park our bikes safely when we wanted to stop and take a break!

Jon: Sounds good. Have you got the website address of the place you got your bike from? I quite like the idea of doing a bike tour.

Rita: Yes – it's a really easy one to remember. It's tradelectric.com

Jon: Can you say that again?

Rita: tradelectric – T-R-A-D-E-L-E-C-T-R-I-C all one word dot com.

Jon: Thanks, Rita.

Rita: No problem. Hey, maybe we can do a bike tour together. I'd love to cycle as far as the harbour next time.

Jon: Great! That's a date then!

Boy: Well, I live in a small town in the north of my country. It has quite a few interesting places to visit. For example, in the centre of town, on the north side of the square we have the historic town hall, which was built in 1895. In front of it, there's a beautiful fountain. Opposite the town hall there's the library. Then if you go over the bridge, we have the art gallery, a big modern building, which often has interesting exhibitions. The art gallery is actually between the cinema (to the north) and a big shopping mall, where I often meet up with my friends.

To the south of the town, there's a harbour, where you can take a boat to the islands. And then next to the harbour is the stadium, where people go to watch our local football team. And just behind it is the public swimming pool. It's an outdoor pool – lovely in summer, but very chilly the rest of the year.

1 **Examiner:** Where were you born?

Candidate 1: I was born in Dubai, in the Middle East. It is situated on the north-east coast of the United Arab Emirates.

2 **Examiner:** Where did you grow up?

Candidate 2: I was born in a small village in China, but I grew up in Chengdu, which is a very big city in south-west China.

3 **Examiner:** Has your home town changed much since you were a child?

Candidate 3: In the last ten years Baku has changed a lot. Ten years ago we didn't have so many tall buildings and there wasn't as much to do then. The biggest problem is that everything is more expensive now.

4 **Examiner:** Is there anything that you used to do in your home town that you don't do now?

Candidate 4: Well, I used to go to the beach every summer when I was younger, but now I don't have time. One summer, I even went fishing. I'd like to do that again. Perhaps I'll have time next summer, after my exams.

12  24

1 Our family bought an apartment in the middle of town.

2 The statue was built in 1985.

3 Our town is situated on the Yangtze river.

4 The shopping mall is called 'the Galleria'.

5 The library is located across from the swimming pool.

6 Many things have changed over the years in my home town.

7 A number of new apartments were developed by the harbour.

8 The bridge was designed by a famous architect from London.

9 Recently, scientists discovered a large cave near our village.

10 Recently, many young people have started to leave my home town to look for work.

11 A long time ago many people used to work in factories in my town.

12 A tourist who visited recently said our town is a great place to visit.

14  25

Speaker 1: In my city there are a lot of things that people can do to enjoy themselves. I personally enjoy visiting the many parks we have, but only in summer when the weather is fine. In winter, people like to visit the cinema or sometimes it's possible to go ice skating on the lake.

Speaker 2: Well, I'm really keen on sport, especially swimming. I live in quite a small town, so we only have one swimming pool and I spend as much time as I can there, when I'm not studying of course!

Speaker 3: Most of the city is pretty modern, but there's an ancient castle where the Emperor used to live. It's just a place for tourists to visit now, but in the past it was the most important place in the country and it's over 1000 years old.

Speaker 4: It depends. There are a lot of traffic jams in the morning and evening when everybody is going to work or school, but the public transport is very modern and the underground's fast and cheap.

Manager: Come on in. It's Anna, isn't it?

Anna: Yes, that's right. Anna Scott.

Manager: Ah yes. Take a seat, Anna. First of all, we're delighted that you'll be joining us as a store assistant at the beginning of next week.

Anna: Thanks very much. I'm really looking forward to the challenge.

Manager: That's good to know.

Conversation 2

Receptionist: Good morning, you're through to Milton College. How can I help?

Student: Oh, hello there. I'd like to book a place on the Food Photography course.

Receptionist: OK. Now, is that the one that starts on the 18th?

Student: No, that's the date of the Food Technology course – I want the Food Photography course. It's the day after.

Receptionist: OK... got it right up on screen now. Food Photography – Saturday the 19th of September. And it looks like you're in luck – there are only a couple of spaces left. We've taken ten bookings already, so you've just made it – the course is limited to 12 participants. It's very popular.

Student: That's good to know! Now can I just check the details of the course?

8  27

Manager: Come on in. It's Anna, isn't it?

Anna: Yes, that's right. Anna Scott.

Anna: Thanks very much. I'm really looking forward to the challenge.

Manager: That's good to know. Now, we know you've just finished a course in Information Technology, so we've decided to put you in the computing and phones section of our department store.

Anna: That's great. Now, that's next to the radios and audio equipment, isn't it?

Manager: That's right. All our radios and audio are in a part of the store we used to call the 'Sound Station'. But as I've just said, you'll be based in the computing and phones section. Now we've recently made this area of our store much bigger so that we can sell a much wider range of computer equipment, such as smart watches.

Anna: Mm. Smart watches.

Manager: Yes, we really want to attract a younger group of customers. And we haven't just given this whole area a completely new look – we've re-named it too!

Anna: Re-named it?

Manager: Yes. From next week it's going to be known as 'Moving Images'.

Anna: 'Moving Images'? Cool! I like it.

Manager: Now, do you have any questions before we move on?

15  28

Student: Now can I just check the details of the course?

Receptionist: Sure, go ahead.

Student: Now it says on the leaflet ... um, let me find it ... OK, got it! Right, so it's called Food Photography, and I've got here that it begins at nine thirty.

Receptionist: That's right – it's an early start. It begins at half past nine and it goes on until four thirty. Most of our weekend courses are quite short and so they're over in a couple of hours – this course is longer. According to the information I've got up here on screen, it's seven hours long.

Student: Oh, I'm glad it lasts for more than a few hours. I don't think I'd be able to learn how to take good pictures in less than seven hours.

Receptionist: Now, I'll just give you a bit more information about the course itself. Basically, you'll learn how to take good photos of food using a digital camera. So it'll train you in the basics of using a range of camera angles.

Student: Camera angles?

Receptionist: Yes, you'll learn how to photograph food using close-up shots, wide-angle shots and shots taken from above, that sort of thing.

Student: What about learning to edit pictures on my computer? Will that be covered too?

Receptionist: No, I'm afraid not. The purpose of the workshop is to teach you how to take good photos in the first place. It's a really hands-on session – in fact, you'll spend some of the day on location in a local hotel. It's just round the corner from the college – the Lincoln Hotel – so you'll have the opportunity to practise taking photographs using real dishes!

Student: That's great – a practical course is exactly what I'm looking for!

Receptionist: Now just a few more things. The full fee for the course is \$55 and that includes a light lunch and refreshments at the hotel.

Student: Oh, that's really good. That means I don't have to worry about bringing along my own drinks and snacks on the day. That would probably cost me at least \$10.

Receptionist: OK, I think that's everything, so I'll just take your details so that we can confirm your place on the course.

Examiner: What do you do? Do you work or are you a student?

Nina: I'm a student. I'm doing a part-time fashion and textiles course. I'm at Milton College, in the centre of the city. I'm in my third year and at the moment I'm studying 12 hours a week.

Examiner: Are you enjoying it?

Nina: Oh yes, I am. I think it's great. I particularly like working with different materials like wool and leather. And I've just made a beautiful scarf and it's made out of plastic. It looks very strange but I think it's great! It's pretty amazing in fact!

Examiner: Would you like to learn anything new in the future?

Nina: Yes, I would. I'd really like to learn how to use computer software to create new designs. This should also help me create new shades of colour. Using technology in this way would be really challenging for me, I think.

Examiner: And is there a job you'd really like to do in the future?

Nina: Yes, there is. I'd love the chance to become a fashion photographer. And if I do well on my course and get some experience of taking pictures at my college fashion shows, perhaps my dream will come true. I've just bought myself a new digital camera and I've already learnt how to take some great close-up shots!

18  31

Nina: I'm going to tell you about a time when I learnt something new. What did I learn? Well, I've always been an active and sporty person and I really like cold weather – I love it when it snows in my country. That's why I decided to learn something that mixes these things together – winter, sport and snow! So, I decided to learn to ski!

I learnt with an instructor. There was a big group of us – we had a great instructor. It was really exciting when we were on the chair lift on the first day. We started on the nursery slope – I couldn't even walk on my skis at first and I fell over many times. It took me a long time to learn how to keep my balance. It really is much more difficult than it looks! It was great fun! I really liked learning in a group – much better than learning individually.

In fact, I was in a skiing competition recently and I won! I got a silver cup. So, I think that's quite a good result.

How did I feel about the learning experience? Well, it was really thrilling to ski downhill for the very first time – I loved the feeling of speed. It was very exciting! I was so proud of myself when I reached the bottom of the slope and I was still standing! It was a great feeling!

Mike: So, what type of meal do you think we should have at the party, Jane?

Jane: I don't know, Mike. Do you have any ideas?

Mike: What do you think about preparing a Mexican meal?

Jane: I really like Mexican food and we could have some fun Mexican party games, but I think it might be too spicy for some people.

Mike: That's true. We could have pizza. Everybody likes pizza.

Jane: Hmm, I think we should have something healthier.

Mike: I know! We could have salad and roast chicken.

Jane: That sounds like a good idea. And it's fairly simple to prepare. Let's do that.

4  33

A: So do you think that we now have everything ready for the meal?

B: Almost, I was just wondering what would be the best way of preparing the potatoes.

A: Well, you could just boil them and serve them with the fish.

B: That would be easy, but I don't think it would be very exciting.

A: What about frying them? Everybody likes fried potatoes.

B: They aren't very healthy though, and I haven't got much oil left.

A: You could bake them and serve them with the salad Elly's preparing.

B: That would taste good, but it takes ages to bake potatoes in the oven. I know, I'll boil them and then put them with Elly's salad.

5  34

- A: Before we go back to the flat, I think we need to check we have everything that we need.
- B: OK, well you went to Arcadia, so I imagine that you got the strawberries and apples from there?
- A: Yes, I did.
- B: Did you notice if they had any cucumbers while you were over there?
- A: I'm not sure. I thought *you* were going to get them.
- B: Well I went over to Best Buy, and I got some nice carrots and peas, but I didn't like the look of the cucumbers.
- A: Oh, I suppose we can go there on the way back to the station.
- B: Don't forget we need to get some cakes and pastries too. We can get those after we've been to Hampton's to get the lamb and chicken.
- A: OK, good plan.

6  35

- A: In this new series of 'Talk of the Town' we'll be looking at the different restaurants in and around Ogdenville and getting some tips and recommendations from our resident food critic, Chris Griffin. So Chris, where have you been this week?
- B: Well, one restaurant that I really enjoyed is Adam's. It's on the Town Square. I ordered a steak au poivre and it was perfect.
- A: What's that?
- B: It's a steak in peppercorns – it's quite a typical French dish.
- A: So, is it a French restaurant or a steakhouse?
- B: Well, the chef is French, but it serves food from all over the world. It has a wide variety of dishes. One word of warning though, it gets really busy at weekends, so you should check they have places before you go.
- A: Have you got any other recommendations for us this week, Chris?
- B: Oh, yes. I can really recommend the Duke on Smith Street. I had lobster and it was really tasty. It also has a few vegetarian dishes, but it's the fish dishes that make it famous in the town. The food isn't that low-cost though, so you might want to save going here for a special treat.
- A: What about people who are on a budget? Have you got any suggestions for them?
- B: Yes, I have. The Tower in Market Street is a fashionable restaurant where people can get a good meal at a reasonable price. I had a pizza, but it isn't a fast food restaurant, it specialises in all different types of food from Italy. I've heard that the lasagne is especially good.
- A: Thanks, Chris. You certainly have given us all food for thought.

11  36

- Chef: I suppose one thing that everybody knows about Japanese, Chinese and Korean cooking is that they all use chopsticks rather than knives and forks like people in the West. The chopsticks that people use in the different countries are quite different though. In China the chopsticks tend to be made of wood and are round at the end, whereas in Korea they're made of stainless steel and are rough at the end. This is because in the past the emperor would use silver chopsticks, as they changed colour if there was any poison in the dish. They can be quite tricky to use, but in Korea people use a spoon to eat their rice. In Japan they use a variety of things to make chopsticks. Wood and plastic are the most popular now, but you can find bone, metal and even ivory ones.
- If we look at the food of the different countries, it's very difficult to talk about China in general terms because it has many different cuisines. So it might be better if we look at Korean and Japanese food a little more. It's well known that Koreans tend to like spicier food and red peppers can be found in a wide number of dishes. I suppose that everybody thinks of sushi when they think of

Japanese food, but you can also find a lot of influences from all over Asia and even Europe, for example tempura, which came to Japan from Portugal. Those aren't present in Chinese and Korean food.

Traditionally, in both Japan and in Korea meat plays less of an important role than in Europe, perhaps because it's so expensive due to the lack of space for keeping animals. That said, both the Japanese and Koreans enjoy meat. Barbecues of all types are popular in Korea and beef forms the basis of many special meals in both of the countries. Now moving back to Chinese cuisine ...

12  37

- Interviewer: Today in the studio I am pleased to have with me the famous chef, Graham Shepherd. Graham has just come back from Beijing in China, where he was making a TV programme on the food you can try in this historic city. So, Graham, what can you tell us about your trip? Was it how you expected it to be?

Graham: It was quite surprising really. I suppose that most people think of Beijing duck when they think of Beijing and I did try some of this tasty traditional dish, but with so many people from all over the country living in Beijing there really are a lot of different foods from all regions of the country. One dish that I really enjoyed and I didn't expect to find was kebabs. These tasty snacks are originally from north-west China, but they're very popular street food in Beijing. They're especially popular as a tasty snack at lunchtime for school pupils. They have less meat and more vegetables than we are used to, so they're a bit healthier.

Interviewer: I'm sure that most people have tried kebabs, but did you try anything that might be unusual for our listeners?

Graham: Oh, yes. One of the things that I had was jellyfish. It added a nice texture to the dish, but I thought it didn't taste of much. One dish that did have a strong taste was hotpot. The dish I had was made in the Sichuan style, so it was very spicy. What I found interesting was that the hotpot was put on a hotplate in the centre of the table, and we were given a dish of raw food and we chose what we wanted and put it into the pot ourselves, and got it out when it was ready. It was great fun and very sociable. And very tasty!

Interviewer: I'm sure that you tried some of the dishes that we all know and love too. Can you tell us something interesting about them?

Graham: Of course, everybody knows about noodles and dumplings, but I doubt many people know how many different types there are! One of the highlights for me was learning how to make fresh noodles with a chef from Northern China. The recipe of egg, salt and wheat flour is quite simple, but to make the noodles by hand you need to be quite a skilful chef.

Something which is much simpler to make are dumplings. The basic ingredients are flour and water, but the beauty of this dish is that it's very flexible. You can fill them with whatever you like. I especially enjoyed one with raw prawns, but all sorts of meat and vegetables can be put in them.

Interviewer: Thanks Graham, that's really interesting, but unfortunately we've run out of time. If you'd like to know more about Graham's adventures, the series will be starting on Thursday at 7 o'clock on Channel 9.

Examiner: What kind of food is popular in your country?

Mohammed: These days a lot of young people actually enjoy Western food like pizza and fried chicken. Our national food is often too spicy, especially for children and foreigners, and also it takes too long to cook. I think that it's delicious though!

Examiner: What do you think of Western food?

Mohammed: Well, I suppose Western food is quick to make and is tasty too, so everyone can eat it without too much trouble. I think that a lot of people like food to be convenient because they're so busy nowadays.

Examiner: Is there any kind of food you don't like?

Mohammed: Yes, I'm not keen on sushi at all. It's so strange eating something that hasn't been cooked. I know it's very fresh and healthy but I just don't like the taste and I can't stand the texture – it's too chewy for me.

6  39

Angelica: I'm going to talk about an Italian dish – risotto. It's a rice dish and most people in my country enjoy it. Unlike in most countries, we fry the rice with onion in olive oil before we add any liquid. We don't cook it in water, but a kind of soup or broth, which can be made of meat, fish or chicken. I'm from Milan, and our traditional risotto is made using saffron, which gives the dish a beautiful yellow colour. It's a very creamy and delicious dish. We usually have it as a starter, not as the main meal.

Firstly, I think that it's popular in my country because – and not a lot of people know this – but Italy's one of the biggest producers of rice in Europe. It's very simple to cook, and as I said before, you can use all types of ingredients. Anything that you can find in the fridge! Also, Italians don't like to waste food, so if you have some fish or some meat and it isn't enough for a meal, you can always make risotto.

I love it first of all because it always reminds me of home. My mother's very fond of cooking risotto and if I was unhappy, she used to make it for me and it always cheered me up. I don't live at home now and so when I'm feeling homesick and missing my family, I always try to find an Italian restaurant and have some risotto! And secondly, I like it because it's a great meal to make for friends – easy to prepare, but very tasty.

You can get risotto everywhere nowadays, but it isn't always that good. If you visit my country, especially the northern part, I recommend that you try to taste risotto there. It really is special and I promise that you will find it different to any risotto that you have tasted before.

Dan: So, Jess, what do you think of my hat?

Jess: It's very nice – I like the colour, and it'll definitely keep the sun off your face. Actually, I didn't notice the clothing stalls.

Dan: I know you didn't! That's because you spent most of your time there looking at all the jewellery! And relaxing in all that fresh air, of course!

Jess: That's true – but actually, I managed to find a really nice necklace. And you'll never guess how cheap it was! Do you want to have a look?

Recording 3

A: So what did you think of it? It only opened a few weeks ago, didn't it?

B: Yes, that's right, so that's why it was very busy. In fact, it was a bit like being at a football match – there were so many people! But I really liked it – it's very convenient because there were at least 50 different shops all under one roof and there's a car park too. I'd really like to go back.

A: Then how about going along there together next weekend? I'd really like to see it for myself. I also need to buy a birthday present for my mum. You could help me choose something for her. And we can go for a coffee afterwards! I'll pay!

And now for the local news ... A new branch of Sports World, the Danish sporting goods company, is opening on Saturday. Most of you will be familiar with the branch in the south of Grinstead that opened two years ago and which has enjoyed a lot of success. There was talk of them opening a new store in the Meadows Shopping Centre in the north of the town, but they have finally decided to open in the east, near the football stadium. As a special treat for fans, Grinstead Town's Danish striker Jesper Nielsen will be opening the store ahead of their home match at the weekend.

That's the end of our tour of the city, so you now have a couple of hours to spend exploring the city centre. If you want to buy souvenirs, you might find them cheaper near the hotel. However, if you're feeling a bit tired, there are plenty of teashops nearby and they also sell boxes of tea that make really good presents. A word of warning, you'll find a lot of cheap electronic stores offering cameras at really low prices. They might seem good quality, but we've had a lot of complaints from tourists who have bought them, only to find they break after about a week.

Thank you for calling the Eastgate Shopping Centre. The centre is currently closed. Our opening days and times are as follows ...

Monday to Saturday we are open from nine o'clock until six o'clock and on Sunday, our doors open at eleven o'clock and we close at five o'clock.

When I first opened the shop three years ago, we mainly sold shirts and jackets that I had designed, and these proved very popular. However, we added more products as the business started to grow. We also started selling online. The jackets and shirts are still really popular, especially online, but in the shop itself, we sell trousers more than any other item.

6  42

We also sell a lot of T-shirts. When I first opened the shop, I had a lot of designs that I'd worked on at university and in general these had writing on the front. I thought that it might be fun if people could put a photograph on the T-shirts as well. I invested quite a bit of money in this and they were popular at first. We sometimes have young children who come in with their parents and they buy T-shirts with photographs on. I've stopped designing T-shirts with writing on them, because I don't have the time, so now we sell more T-shirts with nothing on them at all. If fashions change, I might go back to designing them and if you want a photograph on your T-shirt, you know where to come.

Calling all fans of Sam West! This famous adventure writer will be in Westfield shopping centre tomorrow in Bookworms Bookshop on the first floor. He will be signing copies of his latest book, *Timed Out*. He is expected to get there at quarter past two and will stay until half past three. Get there as soon as you can because queues will start to form as early as noon. Don't miss this great opportunity to meet everyone's favourite writer!

8 44

I had a great day at that new shopping centre but I would complain about one thing – and not the usual kind of thing – the service in all the shops was good, and I had a delicious lunch in the café on the third floor. No, the annoying thing was the amount of rubbish I saw around me. I think it was because there weren't enough rubbish bins for people to put their empty cans and sweet wrappers in. But, apart from that, I would say that it's well worth a visit.

9 45

You will hear a tour guide talking to some tourists. Listen and answer questions 1–6.

Hello everyone. So can you all hear me and see me? OK, my name's David Edwards and I'm your tour leader for your shopping tour today. Now, as you can see, we're parked just in front of the main theatre. If any of you would like tickets for tonight's performance, we can arrange that for you. We're just round the corner from the railway station. If you want to come on our Historic Buildings tour tomorrow, the coach will leave from just outside the station. And if you want to go for a drink at the end of our tour today, there are plenty of cafés just behind the station.

We're still waiting for a few people, but while we wait I can tell you a little about the theatre. Although the building is very modern, in fact a theatre has existed on this site for over 200 years. The original theatre used to be very popular because of the musicals it put on. However, it had to be rebuilt after a fire. Some people love the striking modern design, others hate it. These days, its popularity is mainly due to the fact that it attracts a lot of well-known performers.

Now, in a few minutes' time – at 9.30 – we'll be starting our tour. First we're going to make our way down to Market Place, which is one of the most famous squares in the city – that should take us about ten minutes. There's not too much traffic on the roads, so we should get there at quarter to ten at the latest.

Market Place was the city's old food market. People used to come in from the countryside to sell their fresh fruit and vegetables. Remember that these were the days before supermarkets! You won't find any food here now though. It's now a craft market and I think you'll find lots to interest you – especially if you want to take presents home. You'll see all kinds of things like hand-painted local pottery and leather goods. Personally, I suggest that you visit the jewellery stalls. You really won't find anything like it anywhere else! But if you're looking for clothes, I'm afraid you'll be disappointed. Wait for this afternoon's visit.

We'll stop at Market Place for an hour and a half and then continue the tour with a visit to the Regional Food Centre. Here you can find over 50 types of local cheeses! There is also fresh fruit juice on sale – orange juice, peach juice, pomegranate juice, produced in the villages of the region, and local jam too. You're welcome to buy things to take home with you, but the real reason for our visit is lunch. The idea is that you buy food and drink from the stalls and take it to eat in the lovely open-air dining area.

And finally, in the afternoon we will be visiting the Fashion Fair in the exhibition centre on the outskirts of the city. This is a huge venue, so try not to get lost. There is a whole hall devoted just to footwear – every kind of shoes and boots you can imagine. You can easily find it because it has a green roof. Just don't go through the blue doors at the entrance of the centre – you have to pay for that part of the exhibition. And if all that shopping has exhausted you, there's a café where you can rest your weary feet! That's in the building with a red sign. But don't worry, I'll remind you all about that later.

Right, everyone's here now, so, if you've all got your shopping bags, let's go!

The place where I really enjoy shopping is Covent Garden Market. It's very convenient because it isn't far from where I live. It isn't a traditional food market, though at one time it used to sell fruit and vegetables. Now, it's a collection of all sorts of independent shops and stalls. There's an amazing selection of things to buy – clothes, jewellery, books, art and crafts. I love it because it has a great atmosphere. There are cafés outside in the square, and often you can see street performers. It's very lively and friendly. I avoid the big malls because they're often out-of-the-way – you need a car to get to them.

And what do I enjoy buying? Well, I'm keen on fashion and like to go clothes shopping whenever I can. I love trying on clothes even if I can't afford to buy them! And I absolutely love going to the sales! Sometimes I manage to find great designer shoes at very reasonable prices. And I like shopping for really fun and original gifts for my friends – things that nobody else has. Covent Garden's a great place to do that.

7 47

You asked me to describe a place where I like going shopping, so I'm going to talk about a department store in my town. It's called Judies and it's a very old store. In fact, it's about a 100 years old, so it's very famous. I would say that it's a landmark because everyone knows it. It's very large and spacious too, with four floors and more than 30 different departments to visit. You can find anything you want here, such as unusual presents for your friends, and you can buy really good food too. For example, you can buy traditional cakes and sweets that are famous in my area and they are delicious. It's an amazing shop but it's not cheap. In fact, it's one of the most expensive shops in the area.

I think it's in a good location because it's right in the centre of the town, which is very convenient. It's also very close to the railway station and a multi-storey car park too, so that's good for you if you have lots of shopping bags to carry.

What do I like to do there? Well, I really like spending time in the jewellery department and this is on the ground floor of the building. I love looking at the different rings and necklaces. I enjoy trying them on too! I like gold jewellery the best but I can't afford it.

Why do I like it so much? Well, I like the atmosphere in the store because it's very traditional. All the sales assistants are very friendly and helpful too. Yes, it's a really good store, so that's why I spend a lot of time in it!

Melissa: Thanks for offering to drive us all to the concert. It's really kind of you and makes getting there much easier. I don't live far from you at all. First, you need to turn right onto Maple Avenue and drive to the bottom of the road, passing the supermarket on your left. Then, you need to turn left at the traffic lights and then take a sharp right onto Main Street. You can also go straight on here, past the surgery, but I usually drive down Main Street. Follow this road until you reach a roundabout – you'll pass a park and some shops on your right. When you get to the roundabout, take the first turning on the left, onto Silver Street. As you approach the crossroads here, my house is the first on the corner.

5  50

Melissa: Sorry, I've just remembered, I told Sarah you would collect her on the way. Forget the route I just gave you, I'll give you another set of directions. This route might even be easier. Again, you need to turn right onto Maple Avenue, and go up to the lights. Instead of turning left here, turn right, with the park on your left. Then after the zebra crossing, take the first turning on your left onto New Road. Drive along New Road until you reach the bridge. Sarah's house is the second house after the bridge. That's on the right; there are shops on the left. Once you've picked up Sarah, take the first turning on the left, onto Silver Street, and go straight ahead until you reach the roundabout. Go straight ahead at the roundabout and then take the first turning on the right, Oak Avenue. My house is number 1. It's on the corner.

7  51

Tanya: Hi Jane, this is Tanya. I'm calling to make arrangements for the concert on Saturday. I can't believe you've never been to the Arena before. I often go at the weekend. There isn't just the Arena concert venue, there are also lots of other things to do: shopping, restaurants, exhibitions. I'm giving Melissa and Sarah a lift, so shall we all meet up for a coffee before the concert? I'll give you directions. OK, listen carefully.

As you walk through the main entrance, you come to a square with a big fountain in the middle. This is where people usually arrange to meet up and sometimes they have live music here. Beyond the square, on Main Avenue, on your right, there are several restaurants, and opposite these on your left is an exhibition centre. There used to be a cinema here, but they moved it when they finished building the Arena.

So there are several coffee shops to choose from, one near the fountain and one in the north end of the building, but I suggest that we go to the one at the end of Main Avenue, because it'll probably be less busy than the others. It's right at the end, after you pass the art gallery on the right. So shall we all meet there at seven o'clock?

Then, after we've had a coffee, to get into the Arena we just need to go through the shopping centre, which will be on our right once we go back down Main Avenue. It can be a bit tempting, but there's no other way to get there, as the Arena is the other side of it. Oh, and there are toilets beside the entrance if you need them. And then after the concert, they open the door opposite and you can go straight out into the car park, which is very convenient.

Let me know if you can make it for seven. I'm looking forward to seeing you – it's been a while.

First of all, welcome to our activity summer camp. I hope you enjoy all the activities we have on offer. We start our tour at the outdoor theatre here, where we hold many of our evening activities. From here you can see our various watersport activities. Directly in front of the campsite, on the edge of the lake, we have the kayaking centre. And then in front of the beach, we have an area reserved for diving. Swimming isn't permitted here.

If you like racket sports, just behind the beach you can practise badminton in the large building. That's quite popular in the evenings. We also have some outdoor tennis courts. We used to have basketball in the building too, but now you can play it on the court behind the building. And if these activities make you hungry, the path from there takes you straight to the café and dining hall.

However, we'll continue our walk along the lake shore and I'd like to draw your attention to two other areas. One is this part of the lake, which is perfect for swimming, but, for safety reasons, only when an instructor is present. Unfortunately we can't offer sailing as an option here this year. And I also want to point out, just across the lake, a track for cycling. Some people in the past have also gone running on the track, but there were a few accidents because there isn't enough space for runners and cyclists, so now running isn't allowed.

So now let's take this path here, towards the tennis courts. On our left, you can see there's a football field. Gary's our coach and he'll be organising tournaments during the week. He'll arrive tomorrow, because he's taking part in a rugby game today.

And now if we walk up to the right of the tennis courts, we can see the archery field, surrounded by trees. And in the building just to the right of this, you can hire equipment for the archery and buy snacks and drinks. It also has some table tennis tables, so you can go there and have a game if the weather turns bad.

10  53

Good morning. I'd like to thank the council for agreeing to this meeting and for welcoming us here today to explain to you our plans for Pine Woods Centre. Our aim is to make Pine Woods a place where people of all ages can come and enjoy their free time. The centre will feature our Tree Tops Challenge – only for the brave and fearless! For the less brave, and for families with children, there will be adventure playgrounds, indoor and outdoor, and a feeding area for farm animals and we will also offer cycle trails through the woods.

I'll give you an overview of Pine Woods first and then tell you more about each area in more detail. This first slide shows the overall layout of the centre and where all the activities will be situated. As you can see from the map, the entrance to this attraction will be on the south side. As visitors enter from the car park, they will walk along this path leading them to the café and gift shop. The gift shop will be where tickets are on sale and therefore needs to be near the entrance. So this building here on the right will be the café and the building on the left will be the gift shop. There will also be a picnic field behind the café for the warmer months. It's the area just to the right of the café as you look at the map. And in the bottom right-hand corner of the picnic field we're planning to have a barbecue area, where people can hire a barbecue and bring their own food to cook. It'll be great for parties. In summer we plan to have bands performing here in the evenings.

To the west of the gift shop is where the Tree Tops Challenge will take place. There's a path here winding through the forest, and up in the trees there will be all sorts of high-level adventure apparatus – rope swings, awesome rope bridges and tunnels, and zip wires where you can fly way above the forest floor. This adventure experience will only be open to those aged 15 and over.

Beyond the Tree Tops Challenge there will be an adventure playground. To get to it, you go along this path from the entrance until you reach the crossroads, then you turn left. The young children's playground will have a fence around it, making it safer and keeping them away from the lake. The indoor play area, only for the very young, will be on the east side of the farm, near the café and just inside the picnic area.

And finally, let's turn our attention back to this area here, where the paths meet and form a crossroads. This path leading to the east end of the farm will take our visitors to the area which houses the farm animals. Children will be able to watch the animals being fed and cared for, and in some instances they will be able to feed the animals themselves. The sheep will be in this first area on the right here, directly opposite the pigs, and the goats will go at the very end there. We haven't quite decided on the other areas yet.

So those are our plans. We hope they will be approved, and we look forward to welcoming you back in the not too distant future to see the final result.

I'm going to talk about a hobby I'd like to take up in the future. I really want to learn ballroom dancing. This is because I love Latin music and I love the way the dancers move and shake. I also want to give myself a challenge and learn something new. Watching ballroom dancing always makes me feel excited. I don't think it'll be too difficult for me, because I already do ballet and tap dancing. I like learning new steps. For example, I really want to learn the tango or the samba because these are exciting and look good to people watching. I've tried Flamenco dancing but I'm not very good. I'm also worried about finding the right dance partner, because I'll be a little slow to learn in the beginning. So I might fall over sometimes. In fact I'll probably fall over quite a lot!

7 55

I'm going to tell you about a leisure activity I'd like to do in the future. I'd really like to learn how to play the acoustic guitar. This is because I love music and I love the beautiful sound this kind of guitar makes. I also want to give myself a challenge and learn something new. I don't think it'll be too difficult for me because I already know how to read music. I play the piano but I'm not very good. I think playing the guitar will be easier. I also like the fact that you can carry a guitar round easily and play it anywhere. For example I can play it in the park or on the beach.

I can't think about learning it at the moment because I'm too busy. I need to focus on my studies and prepare for my exams. I think that I'd like to take up the guitar next year. All my exams will be over by then, so I'll have more time, and more money too. In fact, I'll need money to pay for lessons! I think that learning the guitar would change my life in a positive way. If I learn to play it really well, I'll start my own band. I'd love to perform live on stage at a concert. I think that would be fantastic!

8 56

Examiner: Do you generally enjoy trying new things?

Candidate 1: Yes, I would say I like to try new things, meet new people. It's something that is very important to me.

Examiner: Is there any other activity you would like to try one day?

Candidate 2: Yes, I've always thought about windsurfing, I mean, I'm a big fan of the ocean and love water sports, so it's next on my list of things to do.

Justin Bieber's rise to fame is an interesting story. He was interested in music from a very early age and he taught himself how to play a whole selection of musical instruments, which I think is rare in youngsters these days. Like a lot of teenagers who want to be pop stars, he learnt the guitar. But, whereas very few of those teenagers put in the effort needed to be successful, Bieber, on the other hand, not only learnt how to play the piano as well, but also mastered the drums and even the trumpet! One day he hopes to learn the violin.

He was clearly gifted, and his mother used to arrange for him to take part in local competitions. He came second in one, and his mother posted his performance on YouTube. She kept posting other clips of him singing, and soon these attracted a number of fans who started following him, though at this point he still hadn't found fame.

His big break came when a music executive came across these videos by accident when he was looking for a performance by a different artist. He immediately recognised Bieber's talent and gave the teenager a contract with his recording company. His first record was a worldwide hit. He shot to fame in just two years and is now a global superstar, one of the most well-known performers the world has ever seen.

5 60

A: I wouldn't like to be famous. I would hate people to recognise me all the time. You would always be followed by journalists and never able to have a private life. Being followed on a good day, when you've been to the hairdresser and are wearing your best jeans, is perhaps acceptable, but can you imagine how it would make you feel on a bad day?

B: I would love to be famous. I would adore all the attention and the special treatment. Everywhere I went, people would know my name and I wouldn't need to queue any more. The best part, though, would be meeting other famous people. I can imagine that would be so interesting. They would come to my private yacht and I would visit their mansions.

7 61

Interviewer: So, you've been a famous singer for over three decades now. What advice would you give to someone wanting to become famous?

Celebrity: Well, my first piece of advice is – don't try and become famous. Instead focus on being good at something. Choose something you enjoy and then work hard at doing well in that area.

Interviewer: What did you do to become such a successful singer?

Celebrity: Well, a good way to be the best is to learn from the experts. Find people you admire in your area of interest. Try to get as close to them as possible. Observe them carefully. If possible, talk to them. Ask lots of questions. Don't copy them, but try to learn from them. And don't be afraid to experiment, try something new.

Interviewer: Being the best is one thing, but how did you get yourself known?

Celebrity: Getting yourself known is indeed another skill you must work on. One thing is for sure, nobody is going to come to you. You have to make opportunities for yourself. You have a product to sell and the product is you. It's much easier to do that these days, especially with the internet around. Many people use social media for this.

Interviewer: Any other piece of advice?

Celebrity: Yes, the last thing I would say is, if you want to be really successful in something, you will most likely experience a certain amount of failure. People who fail at some point often say that the experience has been a great lesson and helped them on the road to success. Try to learn from these moments instead of being frightened of them. In fact, some of the most successful people have often failed countless times before reaching their end goal. What makes them successful, is that they kept on trying regardless.

10 62

If you're going to take film-making seriously, you need to learn how to get the best from your camcorder. Many people use camcorders these days, to make short videos of their friends and family, and often people just use the automatic functions. These work well enough for those types of occasion, but if you want to take a more professional approach for the production of your short film, you should have some knowledge of the camcorder's manual functions too.

In this tutorial I will start by discussing three of the most basic functions: the focus, the iris and the zoom. The focus control is usually the manual focus ring at the front of the lens, well certainly with professional cameras. It's a particularly useful function if used correctly. The ring turns anti-clockwise for a more distant focus and clockwise for a closer focus.

Next, I will talk about the iris ring. This is also located on the lens. It manages how much light appears through the lens, through the adjustable opening called the aperture. As you let more light into the shot, it naturally becomes brighter.

Finally, I will talk about the zoom function. Many people use this function and it's often over-used! Used in moderation, however, this very popular feature can be a really useful tool. It moves your perspective closer or further away from your chosen subject. I would advise, however, that whilst shooting a long zoom, you use a tripod.

11 63

So welcome to Film-makers' Club. I hope you're excited at the thought of making a film and that you're bursting with great ideas. I've put you all into groups, so here's what you're going to do. Now you might think the first thing that you need to do is to come up with an idea for a story, but even before that you need to think about what type of film you want to make.

Remember that a film is really a story in pictures. There are lots of ways of telling a story. So choose a style of film that suits the talents of the group. If you have talented artists, but no good writers, or actors, you might want to make your film in the style of a cartoon or some other kind of animation. Last year a group made an excellent film using Lego bricks.

So having decided that, you can start to think of your idea for the story. Think about the movies you like to watch. What is it that makes them interesting? Is it the characters, the plot? As regards plot, my advice is – don't be too ambitious, don't make it complicated. Keep it simple – the simplest ideas are often the ones that work the best. Initially you just need to find the basic concept. You can fill in the details later. It's a good idea to keep a notebook in your pocket and carry it everywhere. You never know when a great idea will suddenly come to you! And the more ideas, the better, in my opinion.

The next stage is to write the screenplay – for this you need to divide the story up into a series of scenes. For each scene, the screenplay should begin with a short description of where it takes place and the time of day, that is day or night. Then the rest consists of the script – the lines the actors will speak, and it should also describe the camera movements, and give directions to the actors about how they should move.

Before you can start filming, you need to prepare a storyboard of your film to help everyone involved to imagine the scenes clearly and to understand what you are trying to achieve. This is similar to a comic-book version of your film, but without speech balloons.

And at this point you need to appoint a director. This is a major role and it's vital that he or she is a good communicator, as they are the key link between the actors and the rest of the team. This person will have responsibility for the creative side of the project. He or she will have the final say in the choice of the main actors and in directing the action of the film.

That brings me to the next stage – casting your film – finding the actors. Don't just rely on your friends. Be creative! Perhaps you could advertise on social media. Or if your film needs a doctor, perhaps you could ask one from the local hospital if they could spare a couple of hours for you?

And then before filming finally starts, you will need to assign other jobs, such as director of photography – in your case this will be the person who operates the camera; someone in charge of sound and music, and someone in charge of costumes and props (including furniture and any other objects needed) and also someone to look after hair and make-up. But we'll look at these roles in more detail in our next session.

Well, for this task I'd like to talk about Bill Gates. He's the brilliant computer programmer who created Microsoft and the Windows operating system. I first saw Bill Gates on television in 2001. He was talking about Windows XP, which came out that year. I remember thinking that he is the richest man in the world, but if you look at him, you'd never know that. He just looks like a typical computer programmer.

I like Bill Gates because he's responsible for bringing computers to millions of family homes around the world with his Windows operating system. This made computers easier to use for everyone and also at a price that many families could afford.

I also like him because he was the world's youngest self-made billionaire at the time. If he could do it, I like to I think I could do it too.

Finally, I admire him because he's very generous and uses his money to help people. He has given away a huge amount of his money to charity, and I believe he plans to give most of it away in the end. I think this is an excellent idea and I hope this can show other rich and powerful people that they should also help others.

Well, the famous person I'm going to describe is David Beckham. He was a footballer who played for Manchester United, and he also played for England. I first saw him play for United when I was only seven, so that was probably in about 2002. I remember it as one of the most exciting days in my life!

David Beckham became famous because he was a very talented footballer. His speciality was scoring amazing goals from free kicks. But he wasn't well-known only for his football skills. He became even more famous when he married a pop star – Victoria, one of the Spice Girls. And another reason for his fame was his good looks and his style. I think almost every boy in the world wanted to have a David Beckham haircut! I know I did.

I adored him as a boy because I was mad about football and he was my hero. The reason why I still like him is that in spite of his fame he behaves like a normal guy. I heard a story from someone whose car was broken down in the middle of the countryside. And then a car stopped and a man got out and asked him if he needed a push. It was David Beckham!

This creature is found in the mountains of Central Africa. It has black hair all over its body, which is much thicker than that of other members of the species. This means that it can live in colder temperatures. There are only about 900 of these apes in the wild. A lot of the green plants they eat have been destroyed, and they have also been killed in the past for their fur.

Speaker 2

This creature lives in the ocean from Australia up to Japan. Many of them are quite small, with a body that grows up to five centimetres long, and they have long tentacles, or arms. Its name comes from the bright blue rings that show up when it's frightened. You need to be careful in the sea around them as they are very poisonous.

Speaker 3

These creatures live mainly in desert areas and can survive in both mountains and valleys. Their tails help them to balance when they are climbing or sleeping in trees. Their black and yellow coats help them to hide in the places where they live. Unfortunately, there are only about 250 of these beautiful big cats left in the wild today.

Speaker 4

This strange-looking animal lives in wet areas and comes from the area south of the tropics in China. There are very few in the wild now. As you can see, it has antlers like most deer, but it has a neck like a camel and hooves or feet like a cow. They eat mainly grass and live partly on land and partly in water.

Hello everyone. Today I'm going to talk about a project I've done about the mountain gorilla. I think it's a truly fascinating animal. They originate in Africa – Central Africa, in fact.

So now I'm going to talk a little about where they live. As you can probably guess, and as you can see in this first photo, their name reflects the environment they live in – tropical mountain forests.

Now just like all other apes, they build nests out of leaves. But they don't make their nests high up as other species do – mountain gorillas make them on the ground instead. And they sleep wherever they end their day and they rarely sleep in the same bed twice!

So, I'll move on to talk about the physical features of the mountain gorilla. In other words, what it looks like. So here are some more photographs on screen for you all to have a look at. This gorilla here on the left is a male gorilla. We know that he's an older male gorilla because of the colour of his coat. As you can see, his coat is grey. He's called a silverback. Younger male gorillas are called blackbacks. And there's an obvious reason for that! Yes, a young adult male has a black coat. As he gets older, his coat turns from black to grey.

Next, I'm going to tell you a little about the diet of the mountain gorilla. Interestingly, mountain gorillas are herbivores. In other words, they survive on a diet of plants. As you can see from this next picture, this gorilla is eating leaves. They also eat fruit and flowers. They occasionally eat insects too, but only when they're very hungry! And it might interest you to know that mountain gorillas very rarely drink water, even though they live in a very warm climate. It appears they get all the water they need from plants.

I'd like to conclude by talking about some of the threats that mountain gorillas face. They are in serious danger of disappearing from our world altogether. Let's have a look at two reasons why they're in such danger. And both of these reasons are connected to human activity. Firstly, people are damaging the mountain forests where these gorillas live. They're cutting down the trees to build farms and towns. Mountain gorillas live in close family groups and this means that it's difficult for them to get enough to eat in the small areas they now have to live in. Secondly, gorillas are also suffering as a result of hunting. Sadly, some people find and kill them to sell. So it's a very sad situation indeed for these beautiful animals.

Good morning, everyone. In today's lecture I want to talk to you about a very unpopular animal here in Britain. In fact, you could say that it's one of our least loved animals! It's called the American bullfrog and yes, it does in fact come from America – the east of America, to be exact – and it was brought to Britain in the early 19th century, so you could say that it's been here for quite a long time. It wasn't brought here on purpose – it actually arrived in a big container of aquatic plants. In other words, it was accidentally introduced into Britain.

Now, I'll tell you a little about its appearance. The American bullfrog is a very large – and ugly – species of frog. And when I say it's large, I mean *large*. Interestingly, female American bullfrogs are usually much larger than the males. In fact, they can weigh up to 750 grams, whereas the males only go up to about 600 grams. Take a look at its head – it's really broad and flat, isn't it? And you can see its mouth – just here – that's quite large too.

Now, both the male and the female American bullfrogs have green or brown bodies and have dark spots on the top. But there's one important difference between them – the male's throat is yellow but the female has a white one instead. And the other difference is their eardrums, here just behind their eyes. Those of the male are much larger than the female's.

So, let's move on to why we so dislike the American bullfrog. Well, this is because it has threatened our own native species of frogs. Firstly, it breeds very quickly indeed. For example, female bullfrogs can lay up to 25,000 eggs every single season. And secondly, the American bullfrog is very greedy. In fact, they eat just about anything they can put into their mouths! As well as other frogs, they eat insects, fish and have even been known to eat birds and snakes! So, in other words, they eat the food sources of our own native species. Thirdly, they carry a disease that is dangerous to other frogs. And finally, they don't just damage our natural world, they cause financial damage too. Around £100,000 has been spent monitoring the American bullfrog in the wild.

So, as scientists, we can learn a lesson from this about the dangers of introducing any living species into a new environment.

OK everyone, I think we're ready to make a start. Now, when you think of a dangerous animal, what do you think of? A tiger perhaps? Or maybe a leopard? Most people think that all dangerous animals live on land, but in fact, some of the *most* dangerous animals on the planet live in our seas and oceans. I'm going to talk today about one of these – the box jellyfish.

There are different types of box jellyfish, and they are found in warm coastal seas anywhere from the Indian Ocean to as far north as Japan, but the most dangerous ones are found in the oceans around Australia.

OK, so now let's examine what these box jellyfish look like. There are no prizes for guessing why it's called a box jellyfish! You can see that it's shaped like a box or a cube, with four sides and rounded corners. And you can also see that its body is light blue.

So, let's take a look at the tentacles of the box jellyfish more closely. It's got 15 of these growing from each of the four corners of the box. Now, you may be surprised to learn that these tentacles *can* grow to a length of *three metres*! And another surprising thing is its large number of eyes, that's six eyes on each of its four sides, so 24 altogether.

So now let's move on to talk about the sting of a box jellyfish. What is it? Well, a jellyfish has a lot of tentacles, and each tentacle has thousands of cells which can produce a poison. If the tentacles come into contact with a fish, or a person, they stick to their skin. If the tentacles are very long, they are in contact with a lot of the body, giving a bad sting which hurts terribly. This can be dangerous to the victim.

There are two ways that people can die as the result of a jellyfish sting. Firstly, a very severe sting can cause a person to have a heart attack. This can happen within minutes. Secondly, sometimes a swimmer goes into shock and can't make it back to the beach because they are in such extreme pain. If they're in the water alone, they'll die.

And now I'd like to conclude with advice on how to help someone who has been stung by a box jellyfish. If they have had a heart attack, of course the most important thing is to try to revive them first of all. And then, the best thing to help is vinegar. Yes, the same vinegar you use when you're cooking! Many Australian beaches keep bottles of it near the jellyfish warning signs. You should pour a bottle over the tentacles for 30 seconds, and then the tentacles can be removed. However, if you get stung and don't have any vinegar, you should pour seawater on the skin. This will help to ease the pain before you can get further medical help.

Examiner: What can governments do to prevent illegal hunting?

Student 1: There are two things the government can do to prevent illegal hunting. The first is to be more serious about punishing hunters, for example ...

2

Examiner: Should the government provide more money for zoos?

Student 2: They definitely should. It seems to me that zoos need money now more than ever. Many of them have very old facilities for the animals ...

3

Examiner: How might we be able to protect wildlife in the future?

Student 3: Well, in the future, it might be a good idea to use technology to track where wild animals are ...

4

Examiner: Is there any difference in how children learn about wildlife now than in the past?

Student 4: There's a big difference, I think. In the past, we used to go on more field trips to places to see wild animals, but now we mostly just see them on the internet.

1

Examiner: What should be done to people caught hunting illegally?

Student: Well, if you ask me, I think people caught hunting should pay all the money they made to charities that help to protect animals. And the same for people caught buying these animal products. For example, I read that the government in Kenya took money from people who were caught buying animals' furs. The reason why is that it will help charities better protect wild animals, and hopefully make hunting more difficult.

2

Examiner: Is there anything we as individuals can do to prevent hunting?

Student: Yes, there are many things we can do, and perhaps the most important one is to stop buying things made from animals. A good reason for this is that it might cause the demand for things made from animals to drop. For instance, many of the world's most famous fashion designers have stopped using real animal fur in their clothes.

3

Examiner: Will there be more or less hunting in the future?

Student: In my opinion, there will be less hunting in the future. The reason for this is that many of our animals are already close to becoming extinct, so when they are gone, there will be nothing left to hunt. By way of example, the white rhino in Africa was hunted for many years, but now there are almost no white rhinos left to hunt.

CAMBRIDGE ENGLISH CORPUS

The Cambridge English Corpus is a multi-billion word collection of written and spoken English. It includes the Cambridge Learner Corpus, a unique bank of exam candidate papers.

Our authors study the Corpus to see how English is really used, and to identify typical learner mistakes. This means that Cambridge materials help students to avoid mistakes, and you can be confident the language taught is useful, natural and fully up to date.
